Notes: Data for nonag. jobs are rounded to the nearest 50 except for 2000, which is rounded to the nearest 100; Totals may not add due to rounding or residual categories.

State government data include all paid positions or jobs in the executive, legislative and judiciary branches, as reported in the Department of Accounting and General Services payroll report. It differs from figures from the Department of Human Resources Development, which counts civil service and exempt employees and their full-time equivalency in the executive branch.
